ADVISORY NOTE ON PREMIER FOODS PRODUCTS REGARDING EXTENSION OF THE BEST BEFORE DATE

Dear Troy,

The safety and quality of all food products supplied by Premier Foods is of paramount importance.

In responding to the exceptional challenges and changes in demand posed by the Covid-19 pandemic, we have reviewed our supply chain and stock availability with the aim of reducing food waste and maintaining supply.

In order to deliver this, we have reviewed our products and procedures, and have identified lines where the shelf life can be extended whilst not affecting the quality of the product.

Given the nature of range of products described below, we can confirm that, under normal storage and use circumstances, the products remain safe to consume throughout the 'new' shelf life indicated by the on-pack Best Before date. The Best Before date advises the consumer on the quality of the product rather than the safety.

The extension has been granted in liaison with Premier Foods' Trading Standards Primary Authority and subject to the integrity of the packaging of the product being maintained with seals being intact, storage in dry ambient warehousing and the original production date information and lot code information being retained for traceability.

Brand and Product ranges, along with the duration of the extension are given below in the appendix. -

Yours faithfully,

Alasdair Tucker
Head of Regulatory Affairs
For and on behalf of Premier Foods.

Mike Ager
Business Account Manager

Appendix 1

Material	Brand	Material Description	Extension	NEW BBD
T7481	Angel Delight	A.DEL BANANA 24PTN 12/600G	6 months	31.05.21
